

## Club Competition Entry

As previously indicated, club competitions (singles, pairs, triples) will be administered via Bowslink from now on. Those of you who are not tech savvy, rest assured your selection panel is here to help so please get in touch with one of us if you need any assistance entering into any of the club events listed below.

Please note, in team events only one of you needs to register the team. Playing dates/play by dates will be released by your selection panel once the season outlook becomes clearer, however we are keen to get these events started as soon as possible. Please consider entering, these are your club events, the more the merrier!.

1. Once you have registered on Bowslink, click on the link to the club competition you want to enter (listed below). It will prompt you to log in, but once done, it will pre populate all of your details
2. If entering a Pairs/Triples tournament, get your teammate(s) National ID from them (they can find this in their bowslink profile). When entering them, click the 'link member' button, and this will pre populate all their details

Below is a screenshot of the team registration screen, you can link team mates via the button the right hand side.
